

Pixel Art Live Factory

PEGS BECOME ART

Pixel Art Live Factory attraction is an absolute must-see for all your guests, for they get to see how QUERCETTI PEGS® are produced in real life, learning about every detail of the manufacturing process at the same time.

At the end of their visit, guests will each receive a still-warm QUERCETTI PEGS BALL fresh from the casting line as a souvenir of their visit to our attraction **Pixel Art Live Factory**.

PEGS BECOME ART with Pixel Art Live Factory

The wonderful world of Quercetti Pegs is now available to looking for a rewarding artistic activity. Colouring with Pixel Photo and Pixel Art pegs is an innovative artistic experience which is completely manual and "analogical".

Photo Pixel lets you choose a photo that you like and recreate it using pegs, by going online and printing the pattern cards. **Pixel Art** even has hundreds of images online. Choose one you like and download the pattern card. The pegs come in just 6 different colours, but when observed from a certain distance, the images look just like photographs. The colours mix, as if by magic, to make up thousands of new colours.

Here you find **DOWNLOAD** page with up then hundreds samples to create pictures using pegs from the Quercetti Pixel Art series: www.quercettistore.com

A practical LCD display, shows in a simple way the steps to upload your images on the site and get the template where you perform you opera.
